

MISSION TO THE MOON *PHASE*

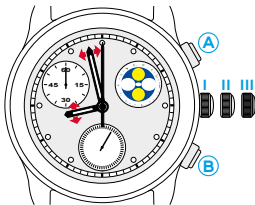

swatch®

SETTING THE TIME

B

To set the time, gently pull the crown out to position **III** and turn it clockwise or counterclockwise. After setting the time, press the crown back to position **I**.

Crown has to be in position **III**.

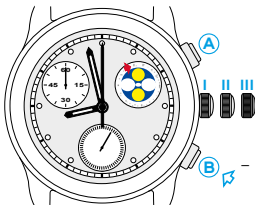

Note:

When the crown is in position **III** the small seconds hand stops moving.

SETTING THE MOON PHASE

C

To set the moon phase, gently pull the crown out to position **III** and continue setting with push-button **(B)**. After the moon phase has been set, press the crown back to position **I**.

Crown has to be in position **III**.

- 1 short press (< 1 sec):
move forward
1 hour per press
- 1 long press (> 1 sec):
continue moving forward
in five-day increments at
slow/medium/fast speed.

Note:

When the crown is in position **III** the small seconds hand stops moving.

To set the counters, gently pull the crown out to position **II**. Use push-button **(A)** to choose counter **(1)** or **(7)**. First press: The seconds counter **(7)** will be activated and will complete one full rotation. Second press: the minutes counter **(1)** is activated, but will not move.

Crown has to be in position **II**.

Continue correcting the position of the hand using push-button **(B)**

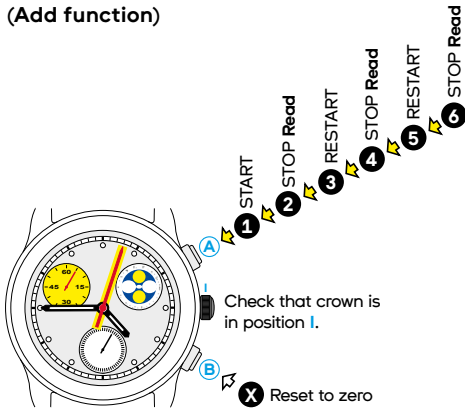

- short press: step by step
- long press: rapid continuous rotation.

Reset the selected counter hand to the position 12h00. Once it is positioned at 12h00 press the crown back to position **I**.
